

## Rockwell Parts

Rockwell Parts - AxleTech International is a premier dealer in the world of specialty vehicle drive-train systems and components along with off highway vehicles. The business prides itself on being its clients' preferred supplier. AxleTech strives to meet and exceed their clients' expectations for delivery, quality, service and technology. They believe in working within an environment that supports the highest integrity with empowered teamwork, together with a persistent pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious business and providing a safe environment for their staff to work in. Furthermore, they have implemented many programs within the company to help convey these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with any questions or comments, as they are happy to promote and share this policy with a greater understanding of their efforts. They are very committed to preserving and improving the surroundings. AxleTech has an EHS program which not only protects the natural environment but which likewise actively protects their neighbors and staff as well.

AxleTech specializes in the designing and manufacture of planetary axles used for both military and commercial applications, which may consist of anything from airport ground support to construction equipment. They take great pride in being a ground-breaking drive-train solutions provider as well. AxleTech specially designs axles so as to meet specific application demands. They have more than 1000 different axle specs within their existing offering. With over one hundred years of history and skill, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The business is well known in various commercial and military applications. They provide complete axle assemblies utilized for aftermarket replacement requirements, along with servicing axle requirements for OE production. Their high mobility ISAS have added details that can be found in the "ISAS" product collection.
