

## Electrical Part for Forklifts

Forklift Electrical Parts - Forklifts may be particularly marked to be used in hazardous locations. A labeled forklift indicates the design has met the minimum requirements of ANSI/UL 558 meant for engine powered lift trucks or ANSI/UL 583 for electric forklifts for the type of label placed.

Applications for labeled trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Maintenance and Operation, Type Designations, and Areas of Use. Check with your local insurance carrier and Fire Marshall for more information regarding the permitted uses of industrial powered lift trucks in your application.

If the certain lift truck satisfies the outlined criteria, labels could be put. A labeled lift truck will show the type of designation placed on the nameplate and would have a properly corresponding label attached.
