

Clark Forklift Parts

Clark Forklift Parts - Currently, there are no less than 350,000 Clark lift trucks performing worldwide, and more than 250,000 operating in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, duel fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique makes of forklifts, with parts covering more than 120,000 specific components for all of its automated equipment. Your regional Clark Dealer is your total source for availability of all your components needs provided by Clark Totalift.

Clark's exceptional Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Internationally, Clark has one of the most amazing supplier support networks. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the material handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing protection features such as the operator restraint system. This exceptional dedication to safety is at this time a customary feature on every forklift.

Clark's continual mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the world to be certified with the internationally accepted quality standard ISO 9001 for each and every one of their production facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental restrictions, thus placing them in a prevailing market position.

Clark has chosen the particularly economical and advantageous structure of "Lean Production" for its assembly facilities and application of resources. This system was developed to acknowledge the most effective approaches of manufacturing plant stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing costs. The contemporary value engineering program combines innovative product improvement and delivers improved consumer support and service within the industry.
