

## Meritor Part

Meritor Parts - Meritor is a leading international supplier that is proudly built on a 100 year custom of service and quality. They specialize in a broad range of integrated systems, modules and components to original machinery manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor prides itself in the company's unique energy and thinks that this particular energy contributes to their competitive advantage within the global operations. The business values all of their clients and wishes to ensure their success while anticipating their different needs. Meritor begins with a culture which values diversity of people and their broad thought processes. Operating in 19 nations and employing over eleven thousand two hundred people, Meritor promotes collaboration and innovation among a team of knowledgeable experts.

By only employing future focused workers, Meritor strongly thinks these top-caliber people would be able to quickly adapt to changing environments and demonstrate the performance and commitment considered necessary to be able to achieve results in the competitive materials handling trade. The business empowers their teams to make sound business decisions in order to enhance the overall success of the company. In return, Meritor provides their employees different possibilities for professional and personal growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that include drivelines, axles, braking and suspension systems meant for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is likewise responsible for supporting the requirements of all their global engineering employees.

The Quality team at Meritor is a dynamic and customer-focused group that is dedicated to ensuring optimum development at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 countries.

The supplier development network is specifically located in order to support new business growth. Regional teams are supported by international centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is likewise included transactional Green Belts who utilize Six Sigma tools to business techniques and apply lean methods.
