

TCM Forklift Parts

TCM Forklift Parts - In the international industry of material handling, lift trucks play a major part for transporting industrial goods. Primarily innovated as industrial vehicles during the 1930s in the U.S., forklifts gained popularity following World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machines spread internationally.

Initially established as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's first lift truck. Over the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation with the business. TCM started building lift truck manufacturing locations outside of Japan in the 1980s and is now engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

With more than 50 years of accumulated expertise and technology, TCM has been proudly making various models of industrial lift trucks, making their models recognizable all around the globe. With a strong and energetic employees, TCM has been able to constantly work towards becoming a future leading material handling company.
