

Concrete Hopper

Concrete Hopper - This accessory is a self-dumping hopper which automatically activates to unload whenever bumper release touches the side of a dumpster. After unloading is finished, the hopper goes back to a locked and upright position. This piece of machinery is also presented along with a cable which enables operation from the seat of the forklift so as to have the option of manually dumping the hopper. There is a locking chain provided to lock the hopper to the tire truck. This particular product is constructed with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper also has a blue powder coat finish to maintain durability.
