

## Barrel Clamp

Barrel Clamps - Referred to as "Barrel Clamp", this particular hydraulic accessory is utilized on forklifts to compress objects which you need to transport with the lift truck. Usually, they're utilized to paper rolls, barrels, and handle kegs, together with several barrel clamp designs being able to revolve the cargo. Like for example, the revolving function enables a lift truck operator to be able to insert a vertically stored paper into the horizontal intake of a printing press.
